Home: Asrama Aceh Chik Ditiro Jalan Bendungan Jati Gede No. 3, Summersari, Lowokwaru, Malang, 65145 East Java (Indonesia)

ABOUT ME

Bachelor of Applied Engineering graduate in Electronic Systems Engineering Technology with nearly four years of hands-on experience in building electrical maintenance. Skilled in preventive and corrective maintenance, electrical troubleshooting, power distribution, and electrical panels, with additional exposure to power generation and industrial systems. Interested in Electrical & Mechanical Maintenance roles and multidisciplinary engineering environments.

EDUCATION AND TRAINING

Bachelor of Applied Engineering (D4)

Universitas Negeri Malang [21/07/2022 – 05/06/2026]

City: Malang | **Country:** Indonesia | **Field(s) of study:** Electronic Systems Engineering Technology | **Final grade:** 3.64/4.00 (Cum Laude) | **NQF Level:** 6 | **Type of credits:** SKS | **Number of credits:** 146 | **Thesis:** Design and Implementation of an Autonomous Smart Waste Bin Prototype with a Deep Learning-Based Waste Classification System at the Joint Lecture Building of Universitas Negeri Malang

1. Recipient of the Kartu Indonesia Pintar Kuliah (KIP Kuliah) financial aid program.
2. Academic Project: Autonomous Smart Waste Bin – IoT & Embedded Systems Prototype
 - Designed and developed an autonomous smart waste bin prototype integrating embedded systems, IoT, and computer vision.
 - Integrated Raspberry Pi, electronic components, sensors, and control systems into a functional prototype.
 - Performed hardware integration, system testing, troubleshooting, and performance evaluation.
 - Implemented a Deep Learning-based image classification system to support automated waste identification.

Vocational High School

SMK Negeri 2 Meulaboh [04/06/2018 – 04/06/2021]

City: Aceh Barat | **Country:** Indonesia | **Field(s) of study:** Electrical Power Installation Engineering | **NQF Level:** 4

1. Studied electrical installation, electrical wiring, power distribution, electrical panels, and basic electrical maintenance.
2. Completed practical field training in electrical installation and maintenance.

WORK EXPERIENCE

Universitas Negeri Malang – Malang, East Java, Indonesia

Building Electrical Maintenance Technician

[01/11/2022 – 31/08/2026]

- Performed electrical inspection, preventive maintenance, and troubleshooting at GKB A19 and A20 buildings.
- Maintained electrical distribution panels, lighting systems, power outlets, and other building electrical facilities.
- Diagnosed electrical faults and performed corrective maintenance to support safe and reliable building operations.
- Worked part-time alongside undergraduate studies, gaining nearly four years of hands-on experience in building electrical maintenance.

PT PLN Nusantara Power – Malang, East Java, Indonesia

Electrical Engineering Intern

[03/03/2025 – 26/06/2025]

- Completed an internship at PLTA Mendalan, PT PLN Nusantara Power Unit Pembangkitan Brantas.
- Gained practical exposure to hydroelectric power plant operations and electrical maintenance activities.
- Developed practical knowledge of power systems, industrial automation, and electrical equipment.

 **CV RoboEdu** – Malang, East Java, Indonesia

Robotics & IoT Engineering Intern

[01/08/2025 – 29/11/2025]

- Assisted in robotics prototype development, assembly, and testing activities.
- Integrated electronic components for robotics and IoT-based projects.
- Worked with microcontrollers, Arduino IDE, embedded systems, and IoT technologies.

 **PT Karya Cipta Neounusa** – Aceh Barat, Indonesia, Indonesia

Electrical Technician Assistant

[14/08/2020 – 12/12/2020]

- Completed Practical Work Training (PKL) at PT Karya Cipta Neounusa.
- Assisted with electrical installation, wiring, and maintenance activities.
- Gained practical experience in electrical troubleshooting and electrical panel systems.

ORGANIZATIONAL AND ACADEMIC EXPERIENCE

[17/08/2022 – Current]

Ikatan Pelajar Pemuda Mahasiswa Aceh (IPPMA) – Member of Management

- Actively participated in organizing social activities and community events.
- Built networks and developed relationships with organization members.

[02/09/2024 – 20/12/2024]

Practical Assistant 2024

- Guided practical sessions and provided technical guidance on laboratory equipment use to students.
- Ensured practical activities followed safety procedures and achieved learning objectives.

SKILLS

Electrical Maintenance / Electrical Troubleshooting / Electrical Installation / Electrical Power Distribution / Preventive & Corrective Maintenance / Industrial Automation / PLC Programming & Troubleshooting / Control Systems / Electrical Panel Inspection / Power Generation Systems / Embedded Systems Development / Microcontroller Programming / Internet of Things (IoT) Development / PCB Design & Circuit Design / Robotics System Development
